t-soft can be accessed from anywhere at any time with minimum bandwidth requirements. It can be deployed on the cloud, thus significantly reducing upfront investment in hardware, while ensuring secured availability. It facilitates seamless sharing of data across geographical locations and departments. It has a user friendly interface, covers all business processes carried out on tea plantations and complies with all statutory and regulatory requirements. Complete software that provides you a comprehensive Solution for all your Software needs, this can replace all your multiple legacy applications ensuring a single point solution.

**Browser based ERP for Plantations .....  
all your MIS on real time,  
access from anywhere**

## Benefits of t–soft

t–soft enhances organizational efficiency and reduces cost overheads by streamlining operations and automating manual tasks. Processes that take days to complete through a manual system can be done instantly. t–soft brings in transparency, visibility and control over all the processes ranging from field operations to the generation of financial statements. It generates highly granular standardized reports on all aspects of operation including data required for filing of statutory returns. Significantly, it offers Bush to cup tracking of the entire production process, ensuring absolute quality control.

## Tailor Made Software Solution for all Tea Operations from Bush to Cup

t–soft is a Unique ERP solution for tea plantations that comprehensively addresses all the requirements for managing business operations. It encompasses a modular design, allowing phased implementation on a fundamental framework. The core modules of the application consist of the following:

- Field Management
- Production, Quality and Dispatch
- Sales & Marketing
- Purchase, Stores & Logistics
- HR, IR, Staff Payroll & Labour Wages
- Finance & Controls
- Budget

**Apart from the above, the application has also the following additional modules:**

- Non Tea Operations
- Handheld Terminal
- Showroom Sales
- Cost Audit
- Fixed Assets Management
- Management Information Systems
- Admin & Legal Operations
- Engineering
- Shares Management
- Hospital Management

## End-to-end software Solution for a Tea Plantation

We have a legendary history carrying forward the lineage that dates back to over 136 years. KDHP succeeded the erstwhile Tata Tea Limited on 1st April 2005.

This Software seamlessly integrates all processes and activities related to plantation operations with perfection. That's why t–soft, our ERP solution for Plantations is unique and the best such product in the market. It is centrally managed and has been field tested since 2010 on several estates, factories and offices. It's all you will ever need to successfully manage all processes from planting of saplings to sales of the produce.
